Mapping Safeguarding Across the Curriculum

Aspects of safeguarding covered are; keeping healthy and safe at school and home, understanding and managing your feelings, and recognising the impact of your own actions on the well-being of others.

E-safety is discussed in all year groups via ICT sessions e.g. the dangers of trusting websites on the Internet.

Assemblies are planned to cover aspects of safeguarding and themes are followed up in weekly class circle times (see assembly timetable plans)

Anti-bullying week is organised annually

The School Council takes responsibility for school improvement issues related to behaviour, the school code of conduct and pupil rights and responsibilities.

Year 6 Leaders take responsibility for aspects of behaviour round school including playground and dinner hall.
